

One-Hour Photo Challenge

A remote photography challenge to do with friends while practicing social distancing!

During a 1-hour timeframe, a new topic is introduced via messenger every 10 minutes.

Participants have 10 minutes to take a photo in their homes and submit it to other participants via a messaging service.

When playing in a group, topics can be drawn by chance every 10 minutes. When playing with two people the participants give topics to each other.

Imaginative execution of the photos is encouraged!

At the end, choose your favourite images and discuss the challenge with each other.
